
ENVIRONMENTAL POLICY - C.E.O STATEMENT

At Efret Ltd care and continuous improvement of the environment is a priority. We strive to develop and operate an environmental management system that sets high standards on pollution prevention, resources preservation and legal compliance.

Every employee and contractor are expected to adhere to this policy and help reach our goals by:

- continually and effectively improving our environmental performance
- promoting sound environmental policies and practices within the company
- setting and reviewing environmental objectives / zero paper objective policy
- waste reduction and prevention wherever practicable
- constant investment in e-technologies enabling better planning optimisation
- optimal transport planning to reduce empty mileage and improve asset usage and
- promoting roundtrip solutions with our customers
- constant investment in latest and versatile transport equipment promoting increase payload
- development of combined transport such as "rail/road" and unaccompanied services such as "Short Sea Shipping".
- minimizing CO2 emission with vastly increase use of EURO 6 equipment
- optimisation of energy consumption through implementation of SMART driving awareness programs
- enhancing environmental awareness of colleagues and contractors
- advocating good environmental practices on both departmental and individual levels
- effectively communicating our environmental performance to stakeholders.

This policy has been approved by the Efret Board of Directors. It will be reviewed, and if necessary revised, annually to keep up to date and will be released on our company website. We welcome interested parties' comments on the enforcement of the policy and the policy itself.
